

QuesTek high-performance 091 Ring and Pinion (4.57 Ratio), the best performing ring and pinion in off-road racing. Used by the top drivers in SCORE 1/2-1600.

- ✓ Lasts Longer
  - Teams have run 4.57 ratio sets for more than 5000 race miles with no signs of wear or cracks.
  - Designed to last more than a full season in SCORE.
- ✓ Saves money
  - No need to replace the R&P after every race. Simplifies race prep.
- ✓ **NEW!** Now available in 5.14 ratio for short course racing.
- ✓ Manufactured from *Ferrium*® C61, a high performance gear steel originally developed for CART open wheel racing.
- ✓ Klingelberg design using the best available manufacturing equipment.
- ✓ All vacuum processing, from the melting of the steel to carburizing and heat-treating.
