

PRESS RELEASE

U.S. MARINE CORPS AWARDS QUESTEK A PHASE II SBIR

Evanston, IL, March 28, 2005 – QuesTek Innovations LLC is pleased to announce that it has been awarded a Phase II Small Business Innovative Research (SBIR) contract by the U.S. Marine Corps to employ its proprietary *Materials By Design*[®] technology to custom-design a unique stainless marine steel for the Marine Corps Expeditionary Fighting Vehicle (EFV) that operates in severe corrosive seawater and abrasive sand environments.

QuesTek Innovations is accelerating the creation, development and insertion of new and enabling materials using its advanced *Materials By Design*[®] technology in aerospace, automotive, medical and industrial applications. For more information on QuesTek Innovations and its *Materials by Design* technology, visit the Company's website at www.questek.com.
